What you will learn			
How to safe	lyexercise		Tips from other people

### What participants tellus

ŬŬŬŬŬ ŬŬŬŨŎ

90%

of participants surveyed were satisfied with the service and participants were more optimistic following the programme

### Participant testimonials

I know my knees are stronger because of the work on my muscles and I intend to carry on with the exercises and gym work I have benefitted 100% from the class. My right knee is much improved and I have a training programme to help me with the rest of my life It has given me the confidence to exercise more than I thought possible at my age and due to the fact that I have osteoarthritis.
